PAVAN KALYAN REDDY AKOLA

EXECUTIVE SUMMARY

Dedicated and results-oriented MCA graduate with a strong foundation in web development and digital marketing. Leveraging over 8 months of hands-on experience as a web developer in a dynamic startup environment during the final year of my MCA, I honed my skills in creating innovative and user-friendly websites. Additionally, I possess over 6 months of fieldwork experience as a freelance digital marketer, specializing in Facebook, Instagram, and Google Ads. Proficient in website building and SEO optimization, I am eager to contribute my technical expertise and creative insights to a forward-thinking organization, fostering growth and driving digital success. Seeking a challenging position where I can apply my diverse skill set and continue to expand my knowledge in the ever-evolving field of technology.

WORK EXPERIENCE

Web Developer - FREELANCE   **02/2023 - Present**
Self-Employed , Tirupati

As a dedicated Freelance Web Developer, my focus has been on crafting impactful digital experiences for local businesses in my community. Specializing in frontend development, SEO optimization, and digital marketing, I've successfully built and optimized static websites, providing businesses with a strong online presence. Offering comprehensive services, I've seamlessly integrated Google Ads and social media marketing strategies to enhance visibility and engagement for my clients.

- Proficient in frontend technologies, ensuring visually appealing and user-friendly websites.
- Implemented effective SEO strategies to optimize website performance and search engine rankings.
- Successfully managed digital marketing campaigns, including Google Ads and social media initiatives.
- Collaborated closely with clients to understand their unique business needs and tailored solutions accordingly.

My freelance journey reflects my commitment to delivering tailored web solutions while fostering local business growth.

Web Developer –Kaitos Technologies   **05/2023 – Present**
Internship , Tirupati

During my final year of MCA, I embraced a part-time role as a Web Developer at Kaitos Technologies, contributing to the startup's innovative initiatives. My responsibilities spanned frontend development and collaborating on various projects, enhancing my skills and knowledge. This experience not only enriched my academic journey but also allowed me to secure an internship certificate, validating my practical contributions to Kaitos Technologies.

- Played a pivotal role in web development projects, contributing to the company's digital footprint.
- Collaborated with cross-functional teams to achieve project goals and deliver high-quality solutions.
- Gained hands-on experience in a startup environment, honing adaptability and problem-solving skills.
- Acquired an internship certificate, acknowledging my commitment and contributions to Kaitos Technologies.

My time at Kaitos Technologies was a valuable learning experience, blending academic knowledge with practical skills in a dynamic startup setting.

PROJECTS

Centralized platform for STUDY MATERIALS |
Sole project | Apr 2023

- To develop a centralized platform that offers convenient access to study materials for the MCA program across SVU colleges.
- For the implementation of this project, I utilized a combination of fundamental web technologies such as HTML, CSS, Javascript and basic bootstrap framework.
- To ensure seamless availability and accessibility, the project has been deployed on a private free server.

Online website for small Businesses |
Minor project | Apr 2023 – jun 2023

- Web platform to uplift small local businesses.
- Tech stack: HTML, CSS3, Javascript, React js, and My-SQL backend.

Login authentication System |
Mini project | Apr 2023

- Secure login with blowfish hashing, even preventing developer access.
- Built with HTML, CSS, Javascript, Java, JDBC, and MYSQL. Features potential 2-step OTP integration.

Men's salon management System |
Major project | Apr 2023 – jun 2023

- Streamlined management for men's salons.
- Utilized HTML, CSS, JavaScript, PHP, and MySQL.

Much more mini projects posted in LinkedIn profile
